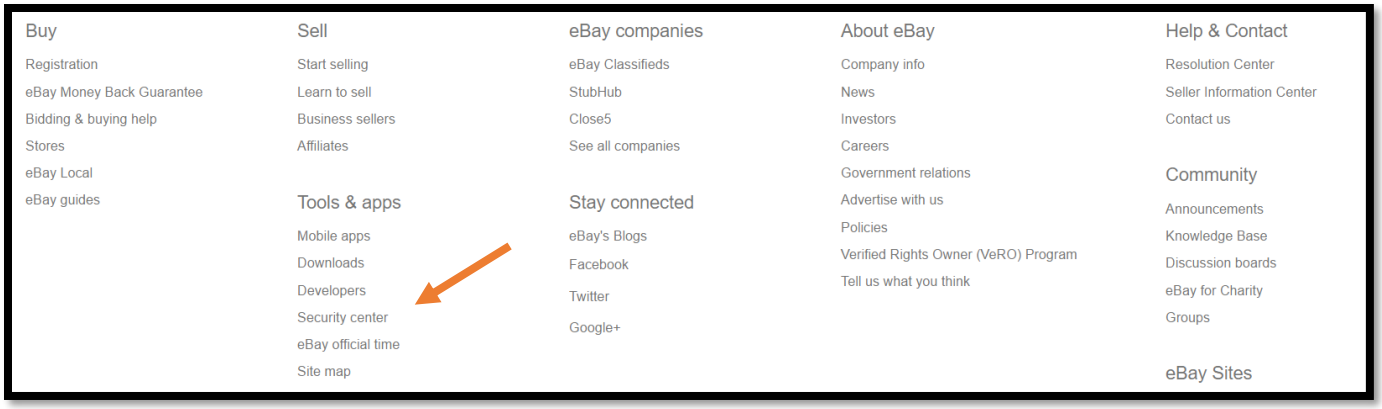
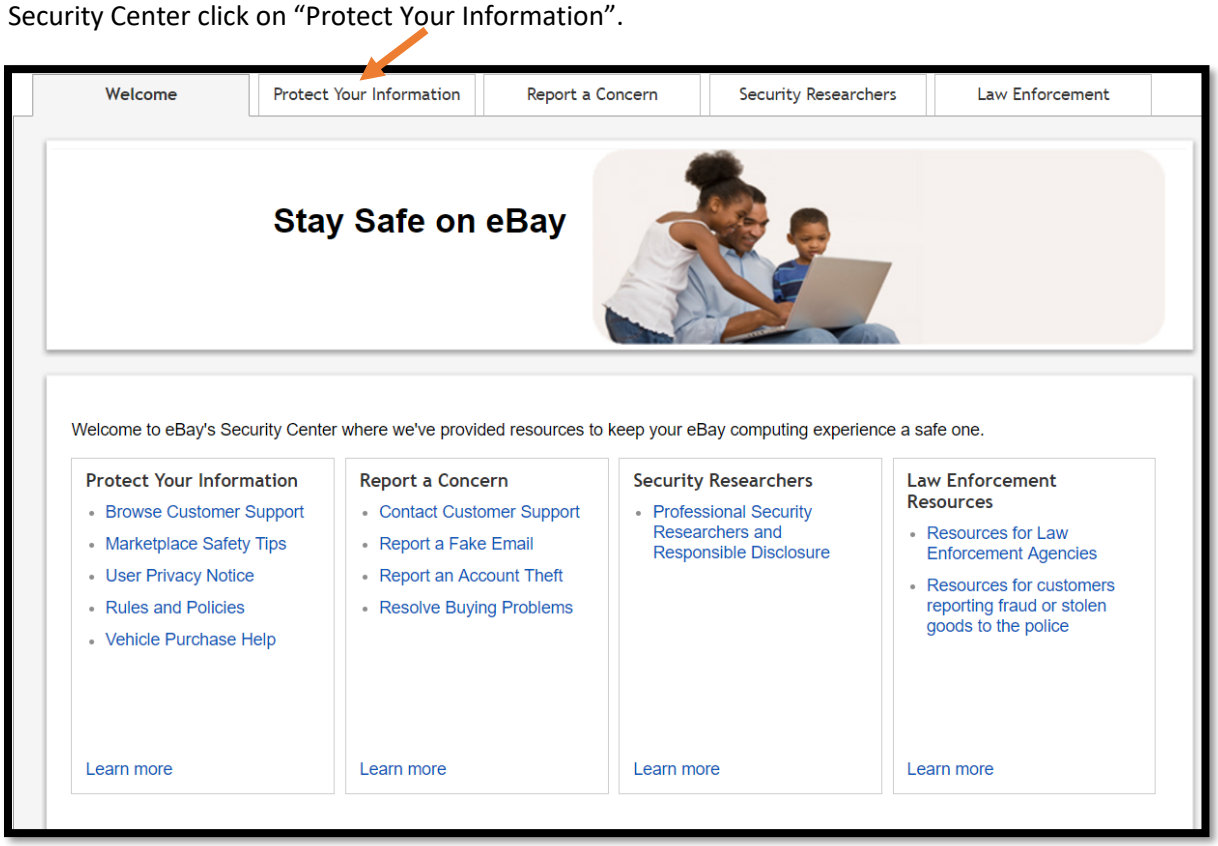
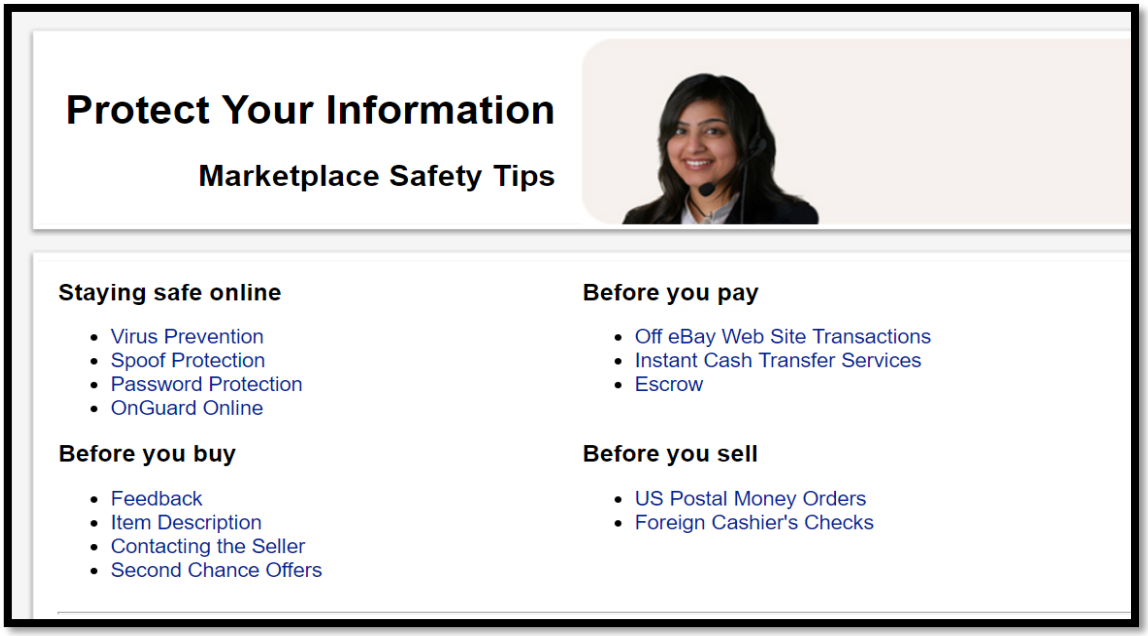
From the home page click on Security center under “Tools & apps”.



From the Security Center click on “Protect Your Information”.

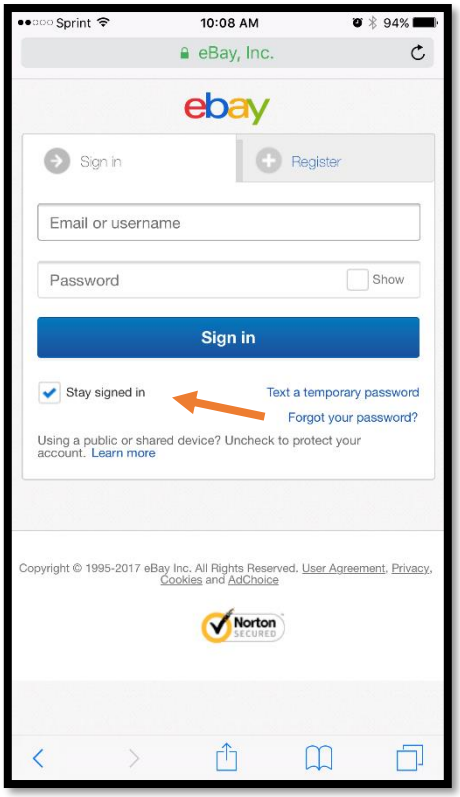


- From this screen you will be able to view information on Virus, Spoof, and Password protection.

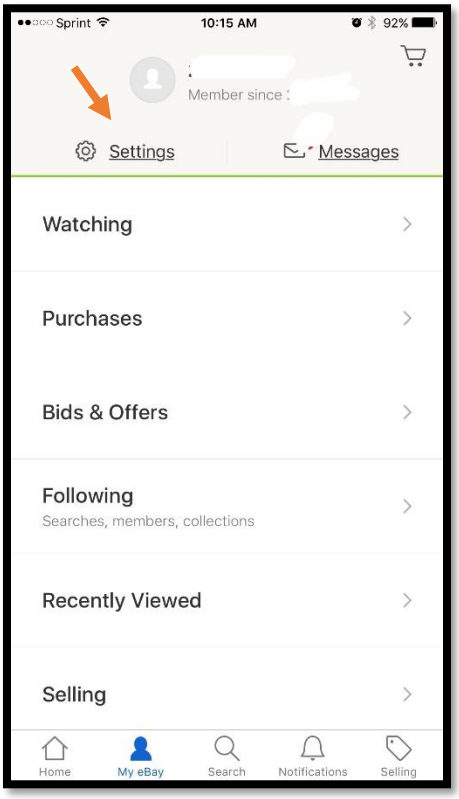


ebay App for iPhone

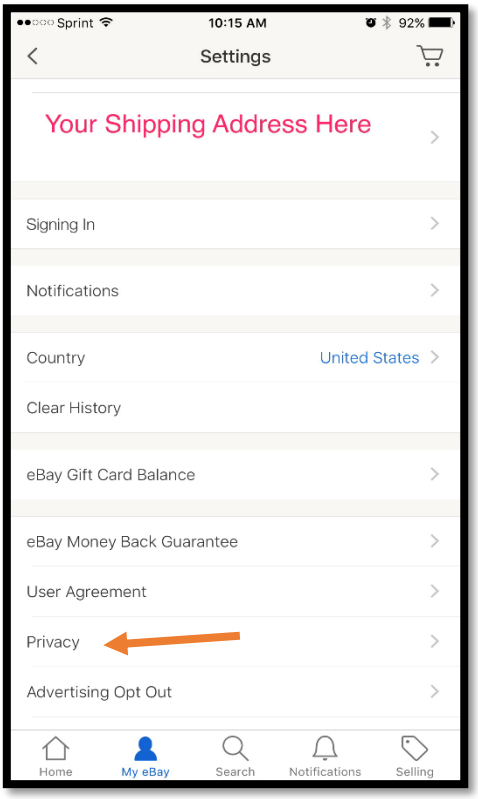
From the home screen, sign in to your ebay account. It is recommend that you uncheck the "Stay Signed in" box.



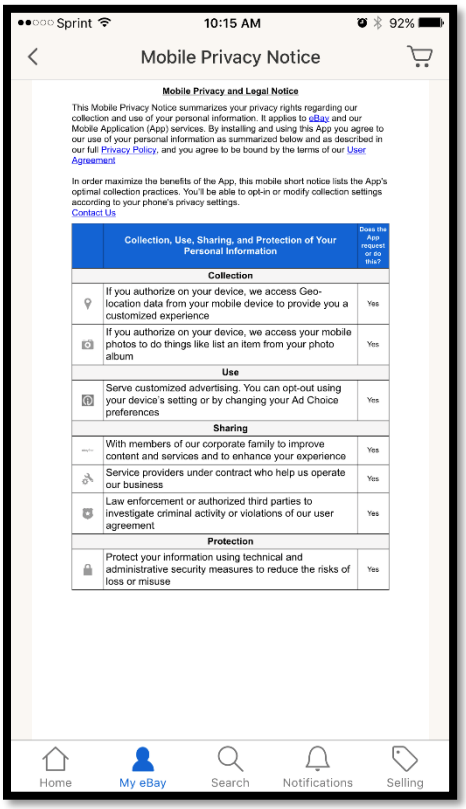
Once signed in, click on “Settings” on the left side of the screen.



From the “Settings” menu, click “Privacy.



From the “Privacy” menu you will be able to view the Mobile Privacy Notice.



From the Settings Menu, click on Advertising Opt Out to learn how to opt out of ads. It is reccomended that you set your device to opt out of personalized ads.

Advertising Opt Out
We may serve you customized advertising in this Mobile Application ("App") using information we collect from this App or our other eBay Inc. Services. You can opt out of customized advertising in this App either by using your device advertising preference settings or by changing your advertising preferences in your eBay account. You will still see advertising within this App if you opt out, it will just not be customized to you.
